

Featured Artist Kelli Leake

Kelli's Story:

Kelli is a landscape and nature photographer. She enjoys nature and loves to capture the beauty that surrounds us everywhere. She is inspired by the colors and textures of the natural world and loves to showcase them in her work. Focusing on these things draws her into the intimate nature of Macro Photography and capturing flora that she encounters around her.

She is inspired by sweeping landscapes when they are illuminated by the gorgeous light of the beautiful sunrise and sunset. She also enjoys capturing the dazzling stars in the night sky.

Kelli has exhibited around Texas and is a Member of the Texas Professional Photographers Association. She completed her Photography Certificate Program at Houston Center for Photography in February 2017.
